

Learn in A Beautiful, Relaxed Setting

The Montage Laguna Beach Resort & Spa is the perfect place for learning in a one-on-one environment. State-of-the-art meeting facilities are available in a fantastic new resort!

An Amazing Resort!

Striking turn-of-the-century architecture, pristine white sand beaches, and the historic and artistic charm of a quiet seaside village all converge at Montage Resort & Spa in Laguna Beach -- the new beachfront luxury resort with heart-stopping panoramas of the Pacific.

Inspired by the breathtaking physical surroundings and the enduring creative spirit of the artists who settled in Laguna Beach nearly a century ago, this new coastal destination opened its doors in February 2003. The 262-room resort is situated on 30 verdant acres in the heart of Laguna Beach and features distinctive wood and stone craftsman-style architecture, complimented by lush, indigenous landscaping with winding pathways.

The resort's luxurious accommodations beckon guests to intimately experience the raw beauty of the powerful surf and vast shoreline. Each room boasts awe-inspiring ocean panoramas.

A Seaside Spa Invigorates the Mind and Body!

A resort showpiece, the 20,000-square-foot indoor/outdoor oceanfront Spa Montage encourages guests to enjoy fresh sea breezes and watch the breaking waves, while undertaking an invigorating workout or a soothing yoga session. The spa offers comprehensive programs and a la carte services ranging from herbal and hydrotherapy body treatments to fitness consultation and classes such as aerobics, beachside yoga and Tai Chi. The oceanfront facilities, with floor-to-ceiling windows to fully capture the breathtaking vistas, feature: a full-service beauty salon; a lap pool; a fitness room with state-of-the-art weights and machines; a yoga/aerobics studio and boutique.

A total of 21 treatment rooms include: 12 massage rooms; four facial

treatment rooms; two hydrotherapy rooms; and three specialty indoor/outdoor rooms that can be used for a single or couple's massage or hydrotherapy treatment.

Culinary delights await you at Montage!

A talented culinary staff oversees Montage Resort & Spa's four dining venues, including The Loft, a casual, all-day ocean view restaurant; Mosaic Grille, a relaxing bluff-side terrace; and the Lobby Lounge for enjoying afternoon tea, spirits and entertainment. The signature dining venue is Studio, spearheaded by one of the region's most acclaimed chefs, the award-winning James Boyce who joined the resort after heading up Mary Elaine's in Scottsdale, AZ. Classically trained, Boyce describes his inventive approach as "modern French with California influences," enhanced by his use of the freshest local ingredients.

Enjoy the water!

Montage Resort & Spa sits on an unspoiled stretch of Pacific Ocean Beach. During October, the average temperatures are 76 high and 55 low. Opportunities abound for fishing expeditions in Dana Point, 3 miles away. Newport Beach, 11 miles away, has a world-renowned harbor as well that abounds in recreational activities. The Montage Concierge can assist with such reservations.

Art and Shopping!

Montage is located just two miles from the heart of Laguna Beach and its myriad of shops, museums and galleries. See www.lagunabeach.com for more details.

Getting There

Montage Resort & Spa is 30 minutes from Orange County Airport (John Wayne, SNA) and 60 minutes from both Los Angeles and San Diego International Airports.
